Office of the Athletic Director
Jon Hartness

Fully Accredited and Making a Difference

Time Technologies

As a high school Athletic Director I have to provide a great atmosphere for our student athletes and fans. Time Technologies has provided us with first class scoreboards and message boards at all our facilities. They worked with us on a personal basis, to assure that we were trained on the operation of all the equipment. Whenever I have had a question or needed a quick fix they have been just a phone call away and helped me work through the set-up. I recommend that everyone give Les and Brad Bowers a call if they have any scoreboard needs. They are a top notch company!

Sincerely,

Jon Hartness
Athletic Director
